</tbody>
</table>

Testimonials

"The whole experience was great. I would highly recommend students to apply for this Study Semester. You can trust me, you won’t be disappointed ;-)"

Anas from Morocco | Study Semester 2015

"This semester was really nice and exciting for me. Study programme was interesting, big variety of modules, lecturers - they know their things pretty well, everyone is professional. International office work fantastic, it was nice to have their support with accommodation and other things like introduction week and international lunch breaks. […] About people I met? I will miss them all! Germans I met were very nice persons, too. To sum up, I wish to stay here longer and someday to come back and visit my new friends."

Eimantas from Lithuania | Study Semester 2014

"I had a great time meeting some cool people and learning about Germany!!"

Susanne from Norway | Study Semester 2014
