Description
The Department of Environmental Sciences, Informatics and Statistics at Università Ca’ Foscari Venezia invites applications for a post-doc fellowship in:

TITLE: Chemical-nutritional profile evaluation of ancient cereals
SSD: CHIMI 01 Analytical chemistry
Scientific director: Prof. Gabriella Buffa
Tutor: Prof. Gabriele Capodaglio
Duration: 12 mesi

Abstract:
The project aim to select Ancient Cereals varieties suitable for the local environmental conditions, which are more resistant to the site climatic conditions, in order to reduce the use of pesticides and cultivation interventions, but which at the same time are also a food source of superior quality from a nutritional point of view. The project aims to characterize from the chemical-nutritional point of view the different species of cereals that will be studied.

The research may be carried out in English.
The fellowship is intended to provide the successful candidate with the opportunity to pursue his/her own research while benefiting from the range of expertise at Università Ca’ Foscari Venezia.
